

WHY?

Gay created. Gay centered.

I created this living workshop to fulfill a deep passion of assisting other gay-identifying men in realizing and manifesting their dreams. I always felt as if I compared myself to my gay friends and coworkers and in return felt judged by other gay friends I had. This made trust difficult and sharing with them near impossible. As I healed my core wounds I wanted to create a safe place where we manifest our dreams, explore our trauma, and inevitably heal these wounds that hold us back from genuine and authentic connection with other gay men. My doctoral work was in posttraumatic growth and how we overcome and transcend the traumas that we have endured throughout life. One of my dreams in life is to help my beautiful community flourish, pinpoint their dreams, and launch their dreams into the universe with this *powerful manifestation co-created portal*. This living workshop places love at the forefront of all that we do. We are centered in the four agreements and nine alignments as we weave our dreams together. I'm so excited to take this journey with my brothers!

With love,

DR. RYAN JOSEPH ALLEN,
ED.D.
