

WHY?

Gay created. Gay centered.

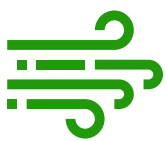

WHY I CHOOSE TO MANIFEST IN A GROUP WITH OTHER GAY MEN...

- We have vastly different traumas and scars with a great amount of commonality within these scars.

- We learn from other men's stories and growth.
- We build friendship as we weave our dreams together. We build brotherhood.

- We learn things that classrooms could never teach. Empathy, connection, and authenticity!
- We expand as humans and are supported by other men- many of our collective trauma stems from lack of positive and healthy male relationship (past and current).

- We get to connect to the planet and our own form of elemental medicine in a safe space.
